PROJECT NAME	Fertilizer Recommendation System For Disease Prediction

Spirit Delivery Plan:

The delivery plan of project it is a strategic element for every Project Manager. The goal of every project is, to produce a result that serves a specific purpose. With the word “purpose“, we can mean the goals: a software program, a chair, a building, a translation, etc.... In Project Spirit Delivery Planning is one of the processes of completing the project and Showcasing the Timeline of the Project Planning. This Delivery plan helps to understand the process and work flow of the Project working by their Team Mates. Every single task is assigned to the team mates to show their work and contribution of developing the Project.
